

- Track 1** - The Ambistar Collective Problem – Brad and Alex arrive in the Torvus Iubar System at the invitation of Giri Null.
- Track 2** - Planet Calidus – They respond to the plea of a captured Teslalite and soon find themselves on a hot planet, in a sticky situation.
- Track 3** - The Space Desert – The Teslalite takes them to an unknown subway exit. A gas giant with a nasty surprise awaits them at the other end.
- Track 4** - Bleeding Edge – Aleph One tries to convey the enormity and multi-faceted nature of their discovery.
- Track 5** – MAMAI Soliton – For their return mission, GAIA sends them a warship and its most expensive A.I. – Why then does Alex not feel at all grateful?
- Track 6** - The Antibeings – MAMAI makes contact with intelligent beings, but this happy event is overshadowed by the information they provide.
- Track 7** - Costing Run – They watch as a GAIA freighter explodes on the gas giant. Mystified, they spot GAIA's largest freighter emerging from behind the sun.
- Track 8** - The Artefact – Hoping for some badly-needed answers, they make contact with the artefact. How is this gas giant connected with the Grefim and the fate of the Ambistar Collective?
- Track 9** - Back To The Antiwall – Pinned down by two Grefim, they finally understand the full implications of unfolding events.
- Track 10** - Message From Tess – Saved again – Brad and Alex feel humbled by this most mysterious of life forms.
- Track 11** - Solefuge – All scramble to divert the Costing Run, but why has Solefuge called them to the simdeck?
- Track 12** – Opposite Attraction – Brad examines Solefuge's motives - Does the end justify the means?
- Track 13** – Contact – A face-to-face meeting with a being made of antimatter is dangerous, but well worth the risk for Brad.
